

A COLLECTION OF DANCES OLD AND NEW

# CAPTAIN'S CELLIÖH

This collection of dances has been compiled from sources old and new to commemorate Maritime England Year. Six of these dances will be familiar to many as they have been selected from existing dance manuals, and their popularity is widespread and well-proven. The other dances have been inspired by friends, occasions and experiences, but their titles have prompted their inclusion here. We hope that this choice reflects a wide variety of form and style, and we are pleased to share it with dancers, callers and musicians everywhere.
