Between Autumn 2008 and Winter 2009, a hold was put on various stages of this CD for a combination of good reasons – work commitments, other projects, the farming year calendar etc – but at all times, things were “in the pipeline”. We’re happy to say that the “pipeline” has now been completed, leak-tested and is cleared fit for public use.

The music is a variety of highland bagpipe, border pipe and ceilidh band selections, some well-known melodies, others perhaps less so. The tunes were chosen simply because we enjoy playing them at village-hall and barn dances as well as informal ceilidh nights and sessions. We hope you enjoy listening and maybe even joining in a dance or two.
